

Matin Karbassioon is a Lean Consultant skilled in applying Best Business Practices and leadership principles to continuously improve productivity, quality and throughput. Matin has developed a number of training programs in Continuous Improvement as well as Problem Solving Techniques.

Mr. Karbassioon has provided consulting, training and facilitation services to small and medium size manufacturers in their pursuit of enterprise-wide excellence. He is certified by the Supplier Excellence Alliance (SEA) to deliver the Lean Enterprise System to suppliers of Aerospace and Defense OEMs to ensure American competitiveness.

Since joining CONNSTEP in 2005, Mr. Karbassioon has successfully facilitated the transition of manufacturing companies from traditional to Lean. These organizations ranging from medical instruments to power distribution manufactures have become more profitable through enhanced quality, shorter lead-times and increased capacity. His latest initiatives include successful deployment of Lean in the healthcare as well as the government sectors.

Introduced to Lean early in his career, Mr. Karbassioon was trained by the leaders of the Toyota Production System and collaborated on the deployment of Just-in-Time manufacturing at Danaher Corporation's first Kaizen events. Later in his career, Matin successfully led and facilitated enterprise-wide Lean initiatives in a variety of manufacturing companies in the automotive, energy services and defense industries.

In addition to his strong background in Lean, Matin has had extensive managerial experience in the manufacturing and engineering disciplines. Throughout his twenty-seven years of experience, Matin has held positions as an Industrial Engineer, Project Engineer, Engineering Manager, and Business Unit Manager.

In his last position prior to joining CONNSTEP, Matin directed the Operational Excellence initiative at a major manufacturer of pressure and temperature instruments where he successfully led and facilitated scores of improvement events at the Connecticut, European and Latin American operations. He trained and certified Continuous Improvement Champions and provided the technical support to ensure their success in implementing Lean throughout a number of facilities worldwide.

Mr. Karbassioon earned his Bachelor of Science degree in Industrial Engineering from the University of New Haven in Connecticut.
